Hello Mr. Will Sommer,

[https://www.reddit.com/r/QAnonCasualties/comments/mkl11y/im\\_will\\_sommer\\_a\\_reporter\\_for\\_the\\_daily\\_beast\\_and/](https://www.reddit.com/r/QAnonCasualties/comments/mkl11y/im_will_sommer_a_reporter_for_the_daily_beast_and/)

According to the above it states:

“My name’s Will Sommer. I’m a reporter for the Daily Beast covering conspiracy theories and the far-right, and the author of a forthcoming book on QAnon for HarperCollins. You may have seen me in HBO’s Q: Into the Storm, which wrapped up on Sunday. I’ve been covering QAnon for three years, and have witnessed all of its bizarre, damaging effects on people and our society ... I've been struck by the less visible, but maybe even more damaging, effect that it's had on thousands (millions?) of relationships across the country.”

My question to you is this: You state above that you have “been covering QAnon for three years” when in reality, you have been covering the Clinton pedophile ring since February 26<sup>th</sup>, 2010 as documented in the first email response you sent to me (which I forwarded below). Did you forget the dozens of emails we exchanged since that time? We even spoke directly over the phone in March of 2011 (you were using phone number 571-268-6955). Did you forget that conversation? Are you saying that I never tipped you off to the Clinton pedophile ring since 2010? I wrote you again in 2020 and you even responded to me on September 27<sup>th</sup>, 2020 email (forwarded below) and then I responded again by giving you my url at [www.theinvestigation.org](http://www.theinvestigation.org) and my phone number, but no response. You are asking to speak to people affected by the QAnon, but you refuse to speak to at least one direct victim of the Clinton pedophile ring. Can you see how that type of behavior does nothing but feed the conspiracy monster?

Obviously there can be any number of fake Q out there after the scandal first leaked in October 2016, but who cares? There is only one person who is not anonymous that has come forward to report them since 1987. Where was 4chan, 8chan and 8kun from December 1987 until October 2016 when the fake “pizzagate” parody first broke. Are you alleging that I am lying about being molested by one of Clinton’s friends (Joseph McPhillips) back in 1987? And are you alleging that I am lying about returning to Morocco in 2007 to assassinate McPhillips by surprising him in his house and throwing him down a flight of stairs? If I was some Hollywood princess accusing some troll named Harvey Weinstein of rape, I am celebrated. But a male child reporting an attempted molestation by one of Clinton’s friends, and this is how the FBI, the media, the courts respond?

McPhillips last words were “let me get my boots”

RIP Q (2011-2021)  
RIP M (1991-2011)  
RIP X (1986-1991)

What letter should I do next?

Hi Mr. Sommer,

I your name seems familiar, did we speak a while back concerning Morocco and Ed Gabriel?

If it was you, I would like to share some newsworthy information with you.

Thanks

Alix

Hi. I haven't responded yet because I'm still working my way through the emails.

Frankly, I'm not interested in the gay angle, unless there's actual child pornography that was covered up. The idea of someone being gay just won't play in the US, or in Europe, even if they were gay in Morocco. I don't care if two consenting adults want to sleep together, and I have a lot of gay friends I don't want to insult by pretending there's any homosexual agenda.

That said, the Moroccan army information sounds great. If you're still interested in working with me, great. But I can't run the gay stuff.

██████████ was working at an american school, so his work was done entirely in English

the majority of employees of the american schools in morocco do not speak french or arabic...

the american school stuff has already been proven, so there is no need to prove it...

all you would need to do is ask gabriel, or anyone at the schools, to provide you the emails/communications they are quoting from in their letter to mekour (which you already have in your possession), or you could then approach them with the emails yourself and ask them whether these are the emails they are using to quote from, and they would still not deny it, but not confirm it....

its very simple....gabriel and the others knew that Mr. ██████████ didn't do anything they had been accusing him of, period.

i will send you some emails with gabriels name on them when I get home tonight, emails where he is plotting to harm another headmaster that they fell out of favor with, and I will provide you with a snippet of an audio recording where Gabriel himself is admitting to the fact that Mr. ██████████ did not do the things he was being accused of.....

attempting to incarcerate a person on false allegations is a crime, and all the elements of it are present in these documents....it doesn't matter that the federal government refused to prosecute because the embassy itself had assisted gabriel and eastman by providing them with a confidential CIA report on ██████████, which was then leaked to the public in Morocco as part of the smear campaign

as for the attempted assassinations abroad and whatnot, here is the problem with my releasing these tapes without first addressing the security concerns of my source I attached the docs and a link to one of the docs and an email from the source describing the dates and newspapers that published these articles:

Hi, Frankie. A question for you: how could [REDACTED] work in Morocco, yet not speak French or Arabic?

Here's the thing. I guess you're representing him in some way, and that's fine. But the American School stuff is mostly hard to prove--how can I, in America, prove something that happened in Morocco, especially when I haven't seen an email with Ed Gabriel's name on it? I can tell you now, if you don't have some massive proof like video of Ed Gabriel doing something, I won't be able to find a place for school-related information.

Look at it like this. It can look like Mr. [REDACTED] was in the right. It can look like people were trying to screw him. But unless I have something that *definitively* proves that actual crimes were going on, rather than just an employment dispute, I can't do anything.

The real money here is the Moroccan general stuff--the recordings you say he has about attempted assassinations, and stuff like that. If you can get me that, I could run a story.

Are you in the United States? Call me sometime tomorrow: 571-268-6955.

Hi! I have received this information. Thank you for putting it together, I'm sure it took a lot of time. I will need probably until tomorrow to process all this information, then I'll get back to you with my response.

Thanks!

Absolutely. My blog's pretty dead, but I could find placement for the documents, recordings, and stories on other sites I have connections with.

Let me know more, and we'll get started. Send me something that isn't on Cryptome. As a reporter, I need to make sure you're credible before I can work with you. The DST has already tried to embarrass me once :)

i got more...much much more....

do you have people that would be interested in seeing more material, including secret recordings (made with Gabriel, a Moroccan prince, a high ranking Moroccan General in the military who is currently the fifth most powerful person in Morocco, and other dignitaries in Morocco including the British Counsel) that will blow the lid off corruption in Morocco...

I also have very juicy information on the King himself, regarding his personal business dealings in the states that are handled by Abslam Jaidi, his personal "go to man" in the states.....
